Grant: Tom and I agree that that change should be fine.

Fine my me if Representative Thompson is good with it as well. Doesn't change the intent and we probably shouldn't have use the word "legislative" anyway.

Dear Representative Thompson and Mr. Pyle,

There is some concern from our leadership team about the language of the final clause in the resolution regarding non-profit compliance. Since ALEC is a 501c3, we do not to advocacy on legislation. Our sister ALEC Action as a 501c4 can do advocacy work, but ALEC focuses on education efforts.

The concern is over the final clause that says "American Legislative Exchange Council specifically supports legislative efforts to eliminate federal tax credits..." as that line could be used to say that ALEC is advocating for a legislation, not education about policy."

Would you be okay with changing the language so that it says "{State} specially supports efforts to eliminate federal tax credits..."

There are other task forces as well that are having this same issue with resolutions and we are trying to tighten up the language on resolutions for all task forces regarding compliance issues.

Feel free to call me if you want to chat about this or have any questions.

Grant:

Attached is a resolution for consideration supporting equal tax treatment for all vehicles. Representative Thompson has kindly agreed to be the public sector sponsor (at least for now).

Please let me know if you have any questions.

Best,

Tom Pyle
